PROFESSIONAL SUMMARY

Full Stack Developer specializing in React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB, with hands-on internship experience and deployed full-stack projects. Experienced in REST API integration, authentication, responsive UI development, PostgreSQL/Prisma, Firebase, and cloud deployment. Built a reusable Dify AI chat widget packaged for npm, a secure note-sharing application, a real-time news application, and Tripora, a travel platform. Focused on maintainable code, reliable API integration, and user-centered interfaces.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, React Hooks, React Router, Framer Motion

Backend & APIs: Node.js, Express.js, Hono.js, RESTful API design, API integration, JWT authentication, Clerk, Better Auth

Databases & ORM: MongoDB, Mongoose, PostgreSQL, Prisma, MySQL, Drizzle ORM

Cloud & Tools: Firebase Authentication, Firestore, Firebase Cloud Messaging, Cloudflare Workers, Vercel, Netlify, Render, Neon, Git, GitHub, Vite, Postman, Figma

Engineering: CRUD, authentication and authorization, RBAC, state management, form validation, responsive design, streaming UI, AI-assisted development

EXPERIENCE

MERN Stack Developer Intern | GloAro Pvt. Ltd. | *Sep 2026 – Present*

- Contributing to a food-delivery administration platform with modular web features and API-integrated workflows.
- Working with TypeScript/React-based UI, REST APIs, validation, testing, and Git-based collaboration.

Junior MERN Stack Developer Intern | Peacock India (Remote) | *Jul 2026 – Aug 2026*

- Built a reusable Dify AI chat widget distributed as an npm package using React, TypeScript, and Vite, with a Hono and Cloudflare Workers proxy for securely routing requests to multiple Dify applications.
- Rebuilt Vault Notes, a secure note-sharing application, using Next.js, Hono.js, PostgreSQL, Prisma, and Clerk; addressed JWT secret handling and race-condition risks in share-link consumption.
- Developed a real-time chat application using Next.js 14, TypeScript, and Firebase Authentication, Firestore, and Cloud Messaging.
- Collaborated with the engineering team using Git-based workflows and AI-assisted development tools.

Branch Relationship Manager | Innov Source Pvt. Ltd. | *Jan 2018 – Feb 2022*

- Managed banking sales operations, credit-card acquisition, loan documentation, and customer account-service requests.
- Built customer relationships and resolved queries while working toward monthly targets in a compliance-driven environment.

PROJECTS

Tripora — Travel Platform

- Developed a travel website focused on discovering and planning trips, with a responsive user interface and backend API integration.
- Deployed the frontend on Netlify and backend service on Render; project branding includes Tora AI and travel-focused user flows.

  Tech Stack: React.js, JavaScript, Node.js, Express.js, REST APIs, Netlify, Render

Vault Notes — Secure Note-Sharing App

- Built a secure note-sharing application with password-protected sharing and one-time or time-based share links.
- Improved security by removing JWT fallback secrets and using atomic share-link consumption to reduce race-condition risks.

  Tech Stack: Next.js, TypeScript, Hono.js, PostgreSQL, Prisma, Clerk

Reusable Dify AI Chat Widget — npm Package

- Created a configurable chat widget with streaming responses, conversation persistence, file uploads, and customizable visual settings.
- Implemented a Hono and Cloudflare Workers proxy to route widget instances to Dify applications without exposing provider API keys.

  Tech Stack: React, TypeScript, Vite, Hono, Cloudflare Workers, Dify

Real-Time News Application

- Integrated a third-party news API to display live, categorized news with dynamic filtering and search.
- Built a responsive interface for desktop and mobile experiences and connected the frontend to backend REST APIs.

  Tech Stack: React.js, Node.js, Express.js, MongoDB, Axios, Tailwind CSS, REST API, Netlify, Render

EDUCATION

Bachelor of Engineering, Electrical and Electronics Engineering | Arunai Engineering College, Tiruvannamalai, Tamil Nadu | 2013–2017

CERTIFICATIONS

- Full Stack (MERN) Developer — GUVI | HCL | Apr 2026
- MERN Stack Developer — Null Class EdTech Pvt. Ltd. | May 2025
