PROJECTS

Real-Time News Application

- Built a real-time news platform integrating a third-party API to fetch and display live, categorized content with dynamic filtering and search functionality.
- Designed a fully responsive UI using React.js and Tailwind CSS, ensuring seamless performance across all devices.

Resume Generator

- Developed an interactive resume generator with live preview, multi-section form handling, client-side validation, and export-ready output.
- Leveraged React component architecture and controlled inputs to manage complex form state efficiently.

Car Booking System

- Built a full-featured booking platform with JWT authentication, role-based access control, and end-to-end booking workflow.
- Architected RESTful APIs with Node.js and Express.js; used Redux for global state management on the frontend.

EXPERIENCE

Full Stack Developer (MERN) — Self-Initiated Projects | *2025 – Present*

- Developed 3+ production-grade MERN applications covering full-stack development, RESTful API integration, JWT authentication, and cloud deployment.
- Managed state with Redux and React Hooks; maintained clean, version-controlled codebases on GitHub with modular component architecture.

Branch Relationship Manager | **Innov Source Pvt. Ltd.** | *Jan 2018 – Feb 2022*

- Managed banking sales operations — credit card acquisition, SBI loan documentation, and customer account services — consistently achieving monthly targets.
